November 3, 1971

To: Directors

Gentlemen:

We are enclosing copies of the minutes of our last directors meeting. Please read and correct. If you feel there are any prominent errors, please submit your change proposal in writing.

We wish to make a final request, for you to add additional subscriptions if you wish. We need the money, and now. To enable all to earn equally on any amounts that may be placed in the Company, we suggest we take it out in interest bearing notes as the original ones were, and convert them to stock in the future when money becomes available.

If you have money you wish to invest in the Company in this matter, please contact us.

Very truly yours,

Lowe Ashton  
President
